

**audiomotion**

## Design motivations:

**Every client has his/her own reason for MT:**

<b>Creativity</b> Releasing my inner artist.	<b>Coping</b> Life is tough right now and I'm recuperating from something, and I want to be empowered in this awesome moment.
<b>Socialization</b> I can truly connect with someone - they're listening to me and care about what I say.	<b>Recreational Activity</b> It's fun!

# Getting started ...

Patient is introduced to audiomotion!

Requires screen w/  
camera

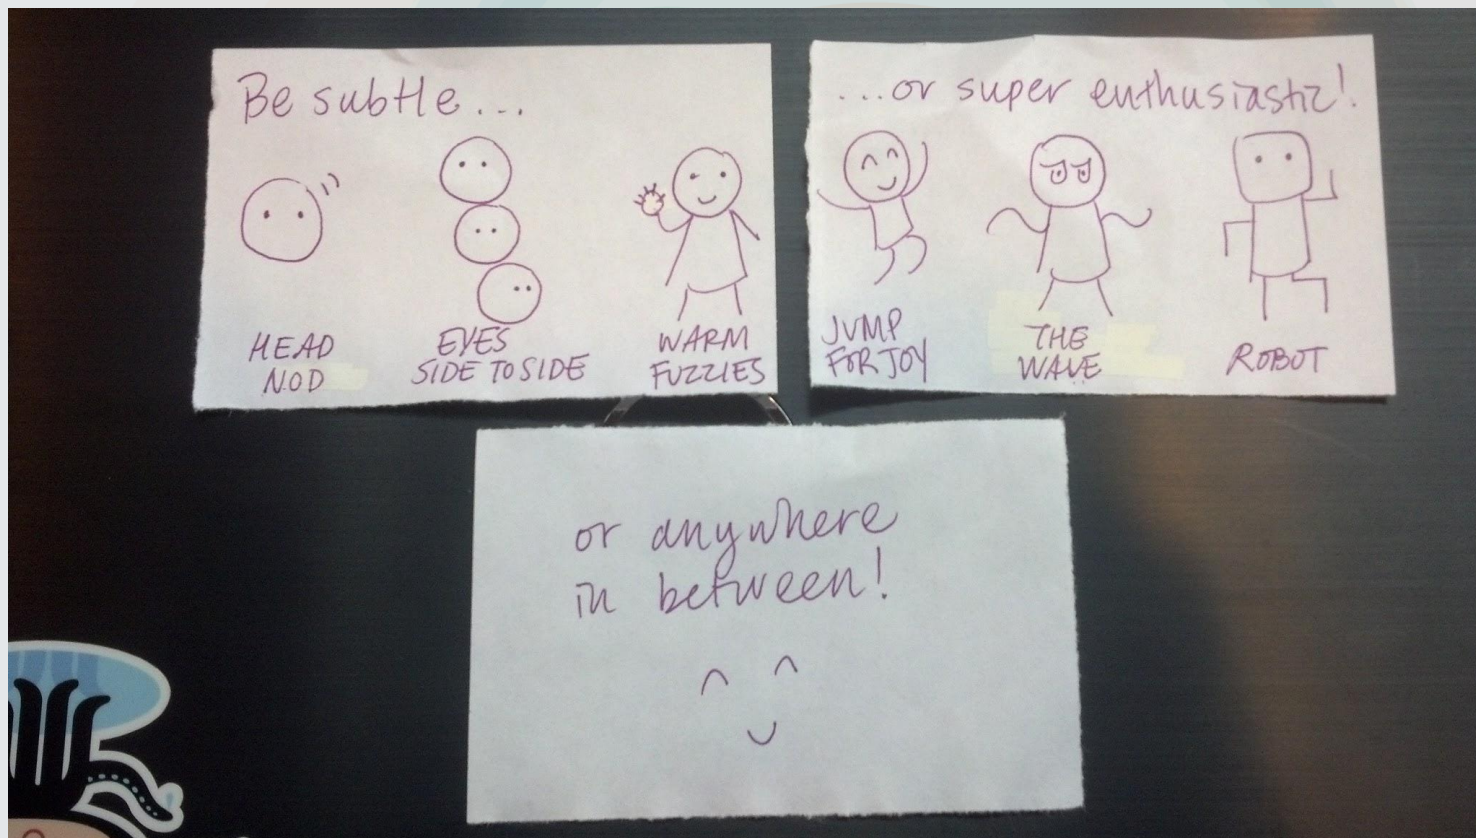

Computer senses how fast and what direction you will move in

Client gestures to screen, computer makes nice sounds

Gestures correspond to:  
Dynamics  
Arpeggios  
Chords/Scale

# Works for clients of all ranges of motion

# Live Demo!

# Documentation!

VIDEO RECORDINGS

UPBEAT?

EXCITING?

do do RELAX?

MUSIC TRENDS

GOOD FOR FUTURE REFERENCE

# IMPACT

## On clients' lives

- Fun, completely **hands-free** music therapy!
- Works at whatever **level of motion** client wants!

## On therapists' lives

- Makes music therapy an option for more clients! (it works with moving **any** body part!)

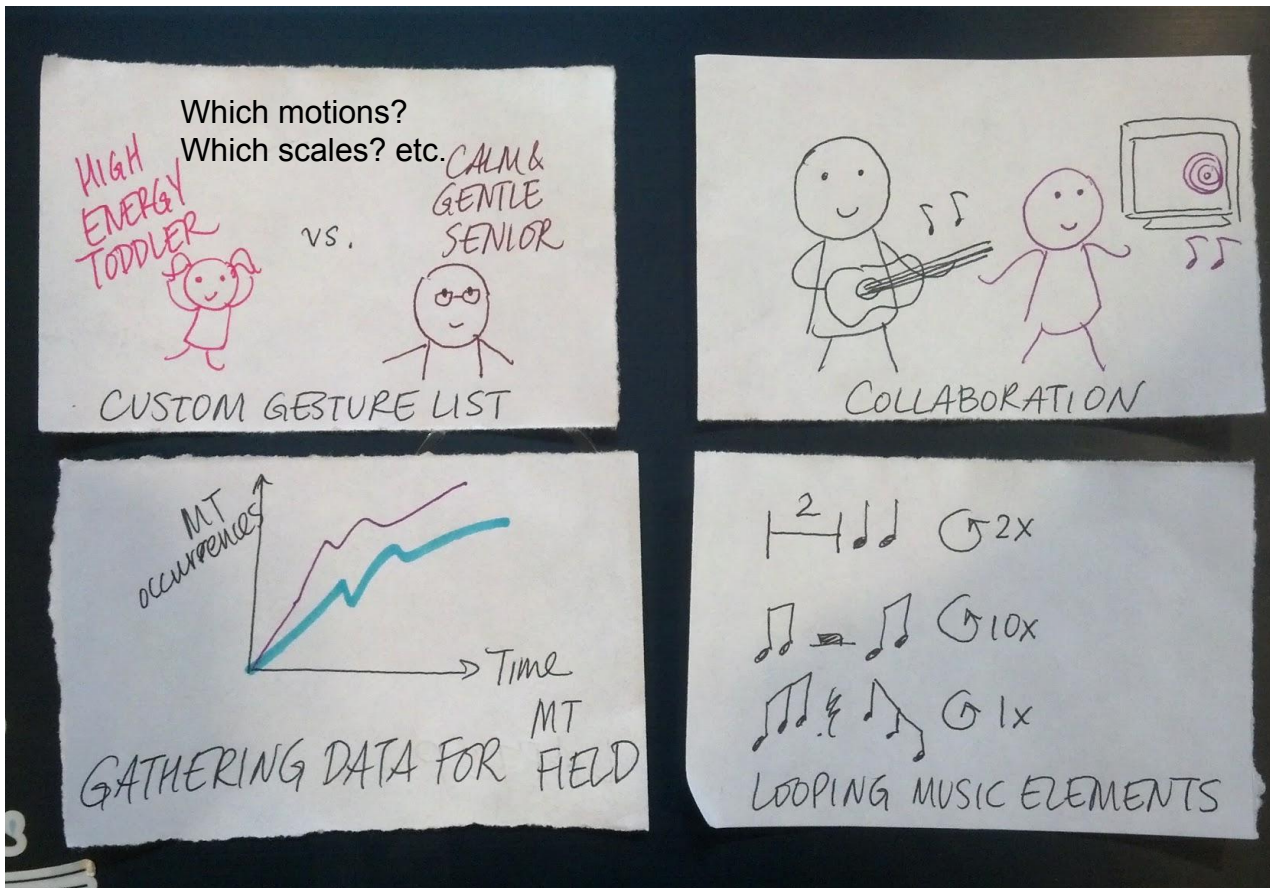

# Different scenarios for audiomotion

# Therapist's potential roles w/audiomotion

**Any questions? :-)**

Thanks for listening!
